## NEW FOLDING CLEATS

### FEATURES

- Hidden Slide-in Hex Bolt system and Thru-bolt versions available.
- The patent pending Hidden Slide-in Hex Bolt system simplifies installation while performing like a weld-in.
- Both versions accommodate different lengths of hardware to adapt to any application.
- Drain opening allows water and debris to pass through, reducing corrosion and wear to cleat.
- Incorporates a positive snap locking feature with audible click into the open/closed positions for easy rigging.
- Low profile, ergonomic design for a smooth, sleek appearance when closed, limiting trip hazards.
- Accommodates up to 1/2" line for 4-1/2" cleat and 5/8" line for 6" cleat.
- Highly polished, corrosion resistant stainless-steel construction.
- Hex bolt cleats include hardware in display packaged versions.
- Patent pending Hidden Slide-in Hex Bolt system and Posi-lock feature.
