

# SIERRA<sup>®</sup>

## PARTS THAT KEEP YOU MOVING.

**THE PARTS YOU NEED  
WHEN YOU NEED THEM**

### **IMPROVED HOUSING**

In order to prevent water intrusion, Sierra's new line of starters are designed to seal off the internal components from the extreme elements found in the marine environment.

### **DUCKBILL VALVE**

Preventing corrosion is vital to the reliability of your starter. Should moisture find a way into the housing, Sierra has incorporated a one-way valve and relief cuts to remove moisture and prevent water accumulation.

### **PAINTED SURFACE**

The starter housing is painted to prevent rust and corrosion on the exterior surface while keeping your starter looking like new after many years of service.
