

HYDRAULIC STEERING KITS

DOMETIC BAYSTAR HYDRAULIC STEERING KITS

Gen 2 BayStar hydraulic steering kits bring comfort, safety and reliability to boating.

QUIET OPERATION
REDUCED STEERING CHATTER,
ELIMINATED FLOW NOISE

MORE RESPONSIVE
TIGHTER STEERING AND
IMPROVED REGRIP

ROBUST DESIGN
BETTER PERFORMANCE AND
LONGER SERVICE LIFE

POWER & CONTROL

DOMETIC SEASTAR POWER ASSIST

Power assisted steering delivers exceptional performance and unparalleled levels of safety and comfort, even in the most extreme conditions.

INCREASED COMFORT
REDUCE STEERING LOADS AND
DRIVER FATIGUE

AUTOPILOT COMPATIBLE
EASILY INTEGRATES WITH
AUTOPILOT SYSTEMS

SIMPLE INSTALLATION
SIMPLE ADD-ON TO AN EXISTING
SEASTAR STEERING SYSTEM

MARINE STEERING SELECTION GUIDE

Chart will assist with selecting the correct system for your outboard powered boat. It is recommended that boats with high steering loads (pontoon, bass boats and larger HP four stroke engines) use the SeaStar / SeaStar PRO steering. Doing so will reduce the steering effort due to the fact that the SeaStar steering systems provide more output power, resulting in lower steering effort. If unsure consult with your marine technical support.

Chart based on 'optimum comfort'

* Ideal for single engine, high speed boats, such as bass boats.

** High performance 150HP engines, such as Mercury Optimax should use SeaStar.
