

Why use Antifouling Bottom Paint:

Antifouling paint is a specialized coating designed to prevent marine organisms, such as barnacles and algae, from attaching to the submerged surfaces of boats, helping maintain their cleanliness and performance.

Benefits of using Antifouling Bottom Paint:

- **REDUCED MAINTENANCE:**
Decreased cleaning and repair costs
- **IMPROVED PERFORMANCE:**
Enhances fuel efficiency – Reduced drag leads to better speed and handling
- **EXTENDED LIFESPAN:**
Regular use protects your vessel against damage caused by marine growth

ANTIFOULING BOTTOM PAINT

ODYSSEY® HD multi-season antifouling combines controlled polishing ablative technology with a high copper content to provide a paint film strong enough to handle the tough marine environment from coast to coast. Odyssey HD is compatible over most finishes, 50 state V.O.C. compliant and will not build up over time leaving running surfaces smooth and clean. Odyssey HD's copolymer resins withstand hauling and relaunching without losing effectiveness for both power and sailboats. **Odyssey HD provides excellent antifouling protection backed up by the industry's strongest warranty. HD (Hull Defense 18 Month Limited Warranty) offers peace of mind to any boater in every harbor.** Odyssey HD offers the most dependable and trusted antifouling paint to every boater and applicator in the industry.
